

Watch Your Step

The John Barry Orchestra

I don't understand your thinking
Don't know why, you do the things you do
Break my heart, and disregard my feelings
Breaking hearts, some kind of game to you I tell you, you better watch your step
You'll fall and hurt yourself one day
 baby listen, you better watch step
You'll fall and hurt yourself one day It's so easy, to tease me
 It's so easy, to let me down
 It's so easy, to mislead me
 It's so easy, to leave me hangin around
no where to come down. Maybe we should just forget this
 Maybe, just put me out of your mind
 I won't stay, not while you mistreat me
I won't stay, It's just a waist of my time I'm tellin you, you better watch your step
You'll fall and hurt yourself one day
 baby listen, you better watch step
You'll fall and hurt yourself one day
