Kicking And Screaming

The Presets

When I was young I collected my heroes
When I was young I was a star amongst zero's
But then I grew up and now I'm heading up river
I'm gonna cover myself in mud, mud
Yeah, I'm a deliver
Never can believe how much fun we're having
Can't believe how much fun we're having
Never can believe how much fun we're having
[Incomprehensible]When I was young, yeah I used to believe it
That the stars in the night sky
Were sun's that refused to sing
And then I sank

Never can believe how much fun we're having
Can't believe how much fun we're having
Never can believe how much fun we're having
[Incomprehensible]Never can believe how much fun we're having
Can't believe how much fun we're having
Never can believe how much fun we're having
Never can believe how much fun we're having
Can't believe how much fun we're having
Never can believe how much fun we're having
[Incomprehensible]
