

Hand to God

Thao & The Get Down Stay Down

We creep so deep in disguise
The private lives of private eyes
My baby you know she loved the life
And I tried so hard to do right We should weep to be free
Do you still see God in me?
What kind of man am I to take the fear to you?
Take a miracle to keep me near to you I show you the metal I am made of
Show you exactly what you been afraid of
My hand's to God to save her
How do I save? I've so much to pay for First you start with the greed
Then you take all of me
Hand to God
Belief in relief nothing to stay for
Won't ask you to survive me one day more
My hand's to God to save her
How do I save? I've so much to pay for We should weep to be free
Do you still see God in me?
What kind of man am I to take the fear to you?
Take a miracle to keep me near to you We creep so deep in disguise
The private lives of private eyes
My baby you know she loved the life
And I tried so hard to do right I show you the metal I am made of
Show you exactly what you been afraid of
My hand's to God to save her
How do I save? I've so much to pay for
Belief in relief nothing to stay for
Won't ask you to survive me one day more
My hand's to God to save her
How do we save? We've so much to pay for
