Wanna talk to the ladies for a second Round of applause for the sexy miss

Body to pop 'em and you get it Tess

Subtract the clothes, add in miss the sex

Multiplying to fight it girl,

Work it out 'til you break a sweat

I'm doing things that you won't regret

Take your time and relieve the stress

I got what you want girl

She screamin' and

She wally, wally

Then she bang, bang

Keep on giving it to her

Give it the same way

No need to worry baby

Trust me I'm a maintain

Until we reach our destination

Oh she wally, wally

Then she bang, bang

Keep on giving it to her

Give it the same way

No need to worry baby

Trust me I'm a maintain

Until we reach our destination

Come fly away with me

Sky is the limit

Baby touchdown on extasy

Oh oh oh oh

I'll protect you

No one can love you better

Put your trust in me, in me

Oh baby Heaven on earth

A breathtaking experience

Your kiss got me delirious

Infatuation in it's greatest form

Let's get lost in each other

Let me stream like no other

Let passion take it's place

As we sin into outspaceShe screamin' and
She wally, wally
Then she bang, bang
Keep on giving it to her
Give it the same way
No need to worry baby
Trust me I'm a maintain
Until we reach our destination
Oh she wally, wally
Then she bang, bang
Keep on giving it to her
Give it the same way
No need to worry baby
Trust me I'm a maintain
Until we reach our destinationCome fly away with me
Sky is the limit
Baby touchdown on extasy
Oh oh oh oh
I'll protect you
No one can love you better
Put your trust in me, in meWhen it came to women told myself I'll never cough
'Til I met you it was like I won a millions bucks
Keep it thriller you the realest bitch I ever touched
Counting paper on the jet we only doin' lunch
This bow shit with a bad bitch
That's staking off for the main dish
She holding on to this sea shit
And dick it out for that tweak fix
I'm taking off, she goin' down
Deep in, she moanin' now
Destination no hesitation
It's my pussy no reservation
Say hell yeah, I meant that
Handbag costs 2 stacks
Damn right, my bitch bad
And that ass on her just so fat
Penthouse on floor 8, wait wait I must say
Know your body been feeding for you like
That shit home, babyShe screamin' and
She wally, wally
Then she bang, bang
Keep on giving it to her
Give it the same way
No need to worry baby
Trust me I'm a maintain

Until we reach our destination
Oh she wally, wally
Then she bang, bang
Keep on giving it to her
Give it the same way
No need to worry baby
Trust me I'm a maintain
Until we reach our destination Come fly away with me
Sky is the limit
Baby touchdown on ecstasy
Oh oh oh oh
I'll protect you
No one can love you better
Put your trust in me, in me
Oh baby
