

# Wharf Me

## Gomez

Mr. Jones, you've been wasted before  
Rest your head on this dirty old floor  
And everybody's mind turned  
To what they knew before  
Everybody's mind turned offShe falls in betweenClose your eyes, you'll be dreaming once more  
Candlelight, things are clearer than before  
Everybody's mind turned to what they knew before  
Everybody's mind turned offShe falls in between  
She falls in betweenMaddest, maddest, maddest day  
When I'm by your door, come out to play  
We will dance and we will swayWe will go so far you'll want to stay  
Saddest, saddest, saddest day  
When I'm by your door on winter's dayShe falls in between  
She falls in between
