

# Airbag

LŇžk

In the next world war  
In a jackknifed juggernaut  
I am born againIn the neon sign  
    Scrolling up and down  
I am born againIn an interstellar burst  
I am back to save the universeIn a deep, deep sleep  
    Of the innocent  
I am born againIn a fast German car  
    I'm amazed that I survived  
    An airbag saved my lifeIn an interstellar burst  
I am back to save the universeIn an interstellar burst  
I am back to save the universeIn an interstellar burst  
    I am back to save the universe
