

Didn't Break Me

Angie Stone

Can you believe him?
After all I'd done for him
I could've slapped him
Anyway - I guess there comes a point
where you just gotta let him now
You ain't goin' take it. Hey Mr Lover Man (Is that you?)
Sunlight beat your home again? (that's true)
Now run back out & catch a ride (cause you lose)
Cause you're not stayin' here tonight (no boo)(but boy look right here)
See I let you have a good time
Then I hit you with a good one (bang-bang!)
When I'm mad you look boy
And see I'm not a play toy (baby)
All this precious loving
Boy what you got coming
Will sure enough have you missing me (yeah) Boy you left my heart
black and blue
but you still didn't break me (didn't break me)
I'll be just enough for someone new
I was just too much for you Ooooo-oo-oh (didn't break me)
Didn't break me - nooo (too much) (repeat verse) Damn right I'm happy now (so no)
You can go spread your love all over town (good luck)
Cause boy you struck out with me
Now you're out there blowing in the breeze (without me)
I told that boy right here: See I let you have a good time
Then I hit you with a good one (bang-bang!)
When I'm mad you look boy
And see I'm not a play toy (baby)
All this precious loving
Boy what you got coming
Will sure enough have you missing me (yeah) Boy you left my heart
black and blue
but you still didn't break me (didn't break me)
I'll be just enough for someone new
I was just too much for you
(repeat) By the time you can see
The one you love will be the one that you need
Baby my love has gone away
I'm saying bye-bye

Won't cry - anymore
Boy you left my heart
black and blue
but you still didn't break me (didn't break me)
I'll be just enough for someone new
I was just too much for you
(repeat twice) Had to put you down 'cause I didn't wanna wind up like those other girls
Lisa Nicky Stacy Becky
repeat twice
