Anywhere Love Took Us

Josh Taerk

Anywhere Love Took Us
Josh Taerk

Verse:
Close your eyes and
Remember when we first met
Passing glances
In second period French

I can still hear my
Name whispered out of your lips
Sneaking under the bleachers for our first kiss

Midnight moments
Out in the back of my truck
You put your head on my chest and it was more than enough

To light my fire
And keep it burning
All night long barely holding on our world girl it was whirling and

CHORUS
You couldn't take your eyes off me
And I would do anything to be
Everything you would ever need

All caught up
In your touch
Going anywhere love took us

Verse:
Flashing forward
It seems so long since those days
Yeah life gets busy
And love gets pushed off and saved

Well I'm sick of saving
Girl I'm all in
Letâ€™s get it back

Get it back like it was back when

CHORUS
You couldn't take your eyes off me and
I would do anything to be

Everything you would ever need
All caught up
In your touch
Going anywhere love took us

Solo

Bridge:
I can't hold this back no more
Iâ€™ll fight for what we had before
When

CHORUS
You couldn't take your eyes of me
And I would do anything to be
Everything you would ever need

All caught up
In your touch
Going anywhere love took us

Anywhere love took us

Wooh
