A Lovely Sound

Chase Coy

Over fall break you're coming down to see me
I know that the distance doesn't make this easy
But when we come together, it makes such a lovely sound
And that's why I'd give anything I have to work this outAnd everything I ever did didn't matter up 'til now
You make my life worth while like you've completed me somehow
And when we come together, it makes such a lovely sound
That's why I'd give anything I have to work this out(acoustic)For the first time in my life, I know that I'm in love
I could write a thousand songs about you, they would never be enough
But when we come together, it makes such a lovely sound
That's why I'd give anything I have to work this out
