

Hideaway

Berlin

Cool and so breezy
Take it or leave it
Keeping your distance
Arrows to your heart just bounce away Well I see you bleeding
Your sad eyes are bleeding
The poison is spreading
So cleanse yourself with tears of salvation Forget the pain
Hide away in my arms
Oh where's the shame?
Cry away there's no harm Lost in a nightmare
Falling through thin air
Faster and faster
Love is getting closer and closer It's time that you wake up
From haircuts and makeup
No need to be frightened
Trust in the love that you dream of Forget the pain
Hide away in my arms
Oh where's the shame?
Cry away there's no harm You'll be my hero
Start back at zero
Throw off your mask
Freedom at last
Trust in a needed friend It's time that you wake up
From haircuts and makeup
No need to be frightened
Trust in the love that you dream of You'll be my hero Forget the pain
Hide away in my arms
Oh where's the shame?
Cry away there's no harm Forget the pain
Hide away in my arms
Oh where's the shame?
Cry away there's no harm, no harm Forget the pain
Hide away
Where's the shame?
Oh cry away Forget the pain
Where's the shame?
Cry away oh
