Best Day

Dirk Darmstaedter

I'm back here in the states
(Thoughts turning over)
I've seen the marks go by
(Beside you)
I've dreamt about this place
(With thoughts turning over)
Of how this morning will ariseIt's the best day of my life
And I won't let it go
It's the best day of my life
And I won't let it go
I just wanna be right here foreverSee tielines scatter wide
(Luck turning over)
See how the sunrays gather
(Beside you)
I feel you close nearby
(With luck turning over)
Today I think I'll meet you thereIt's the best day of my life
And I won't let it go
It's the best day of my life
And I won't let it go
I just wanna be right here foreverAs the sun went up
The shadows fell
Plains flew, vents exhaled
With people in the streets
And steam everywhere
Taking my mind to another level of expectation
I saw you there
Could you ever be more beautiful
I've tasted the apple for the first time
And it tasted good, real good
I always saw you as a work of art
A change of heart
But I never ever saw you as my startIt's the best day of my life
And I won't let it go
It's the best day of my life
And I won't let it go
I just wanna be with you forever
I just wanna be with you forever
