## InMe

If you existed i would love you  
Its my last dream close again  
Ripples in you liquid soul  
One day this will all cave outTake it all from me  
We'll never be free  
Bring it to me  
And spit me out for goodyeahIf you could listen i would bore you  
Its my last dream close again  
Crippled in you icy soul  
One day this will all collapse
