

# Over You

## Honor Society

Got another question that I need answered  
But you won't speak to me  
Got another problem that I need solvin'  
When are you gonna see  
Don't act like you don't care  
'Cause I know you do  
Yeah you do

But I just can't figure it out  
I'm not over you  
And I just can't leave it alone  
I'm not over you

What happened to the days  
When I knew all the ways to make your body move?  
Try to get it back but the distance grows  
I know you feel it too  
I can't act like I don't care  
'Cause I do  
Yeah I do

But I just can't figure it out  
I'm not over you  
And I just can't leave it alone  
I'm not over you  
And you just won't pick up the phone  
I'm not over you  
And I know I'll never get through  
I'm not over you

Ripped up the pictures of you and me  
I tried seeing other girls  
But they were just a distraction  
Never the same ACTRACTION  
I'm going crazy over you

But I just can't figure it out  
I'm not over you  
And I just can't leave it alone  
I'm not over you

And you just won't pick up the phone  
I'm not over you  
And I know I'll never get through  
I'm not over you
