

Deathrider

Anthrax

Riding hard, high in the saddle
Winged steed of unwearing flight
Sweeping through air just like fire
Swift of the foot, great of mightHear the screams, feel the bite
We ride with death tonightConquering all, spreading terror
Hoofs gallop in thunderous pound
Devouring the souls of the wretched
Trampling them down to the groundHear the screams, feel the bite
We ride with death tonightHere it comes, you better hide
Shoot the guns, you're gonna dieGripping the reins of destruction
Made of steel on his hands
Holder of forces immortal
Slaughtering all in his pathHear the screams, feel the bite
We ride with death tonight
