

Magic (IYES Remix)

Paperwhite

I can see the mean lights shining outside your window
And as I breathe aaah
You know why the night's floating away
You gave to me another chance to feel time freeze
Another chance to keep moving
Another chance to feel alive Where should you go
Where should you go
Where should you go
To help me floating on
And you thought I'm in
A taste of fantasy
Give me some of your magic
Some of your magic
To keep me hanging
Give me some of your magic
Some of your magic
To keep me hanging I fell asleep, a moving sky right outside of your window
Your hands all bleed
You know I like remains of the day Where should you go
Where should you go
Where should you go
To help me floating on
And you thought I'm in
A taste of fantasy
Give me some of your magic
Some of your magic
To keep me hanging
Give me some of your magic
Some of your magic
To keep me hanging Give me some of your magic
Give me some of your magic
Give me some of your magic
Give me some of your magic Don't you love it 'cause we're side by side
Don't you want to move together all our lives Give me some of your magic
Give me some of your magic
Give me some of your magic
Give me some of your magic
