

Mars

VanLadyLove

I see you staring
At rockets in the sky
Firing the liquid
Lightning on your eyes
I think you know
You can make it if you try(Chorus)
We can make it to Mars
Lead a fire in the dark
Maybe find a place out in where
Stars don't try to blow each other up
We can make it to Mars
Lead a fire in the dark
Maybe find a place out in where
Stars don't try to blow each other up I see you waiting
For miracles at night
Standing still while
Lives can pass us by
Don't know we can make it
We can make it if we try
I see you waiting
For miracles at night(Chorus)
We can make it to Mars
Lead a fire in the dark
Maybe find a place out in where
Stars don't try to blow each other up
We can make it to Mars
Lead a fire in the dark
Maybe find a place out in where
Stars don't try to blow each other up We've made our decision
A thorough division
We've made our decision
A thorough division
A cosmic religion
Like nuclear fission
We've made our decision
A thorough division
A cosmic religion
Like nuclear fission, baby(Chorus x2)
We can make it to Mars

Lead a fire in the dark
Maybe find a place out in where
Stars don't try to blow each other up
We can make it to Mars
Lead a fire in the dark
Maybe find a place out in where
Stars don't try to blow each other up
