Angel Flight

Radney Foster

All I ever wanted to do was fly
Leave this world and live in the sky
I left the C130 out of Fort Worth town
I go up some days I don't wanna come down

Well I fly that plane called the Angel Flight
Come on brother you're with me tonight
Between Heaven and earth you're never alone
On the Angel Flight
Come on brother I'm taking you home

I love my family and I love this land
But tonight this flight's for another man
We do what we do because we heard the call
Some gave a little, but he gave it all

I fly that plane called the Angel Flight
Come on brother you're with me tonight
Come on brother you're with me tonight
Between Heaven and earth you're never alone
On the Angel Flight
Come on brother I'm taking you home
Come on brother I'm taking you home

Well, the cockpit's quiet and the stars are bright
Feels kinda like church in here tonight
It don't matter where we touch down
On the Angel Flight its sacred ground

I fly that plane called the Angel Flight
Gotta hero riding with us tonight
Between Heaven and earth you're never alone
On the Angel Flight
Come on brother I'm taking you home
Come on brother I'm taking you home
Come on brother I'm taking you home
Come on brother I'm taking you home
