# Everything

## Craig Cardiff

Oh were you named for the patron saint judes
Patron saint of lost causes
In a car wreck or a fist fight
almost always coming through
Is it you
all the broken things fall into?Oh were you named for the body stars
above some ocean somewhere
Back when they left you so high and dry
You said I don't even careIt's not one single thing,
it's just everything
I hate the way change
changes everything
Tonight I think I'd like
to stay inside with youOh were you named for the st. william of
the church down on inglinton square
the body left standing with arms full of birds
do you know why everything is changing so
