Even If I Could

The Mamas & The Papas

Now I know just how you feel, it was real
When I broke your heart
Now I know just why you cried when I lied
And I broke your heartNow I know just how you feel
And I know that it was real
Now I know just why you cried
When I lied, I lied, I liedBut I want it understood
When it was, it was very good
And I would not trade away
Not a day, even if I couldNow I know just how you feel
And I know that it is real
And now you know just why I cried
When she lied, she lied, she lied
