

# Even If I Could

## The Mamas & The Papas

Now I know just how you feel, it was real  
When I broke your heart  
Now I know just why you cried when I lied  
And I broke your heart Now I know just how you feel  
And I know that it was real  
Now I know just why you cried  
When I lied, I lied, I lied But I want it understood  
When it was, it was very good  
And I would not trade away  
Not a day, even if I could Now I know just how you feel  
And I know that it is real  
And now you know just why I cried  
When she lied, she lied, she lied
