Cold Heart

Project Pitchfork

we're living in a thoughtless age
with the scare of the military wonderboys
'cause they like to play with their deadly toys
especially with the scare of AIDSnow it turns into a wasteland scene
they say they do it for you and me
there was a land so nice and green
that's a lie war is just a good economyleaders lie
many lost on broken land
and people die
broken arms and bloody hands
many dead on broken landtry to stop that
don't ignore
get back to your dreams and fantasies
leave your fingers from the cold heart
if you like to survive
keep your mind alivenow it turns into a wasteland scene
there was a land so nice and green
they say they do it for you and memany lost on broken land
that's a lie war is just a good economy
leaders lie
and people die
broken arms and bloody hands
many dead on broken land
