

3 Times

Cat Power

I've seen you a couple of times
Guess I've seen you 3 times
Walking circles around me
When you stand in front of my eyes I'll make sure I'll look
I'll make sure I'll look
I'll make sure I'll look Away, away
Away, away She like a little Chinese, she is Chinese
Maybe it would be nicer if I search out the names
She comes around you and me
And when you stand in front of my eyes I will look
I will look
I will look Away, away, away
Away, away, away She looks in distress
She looks impressive
When she is dancing her little home dance on me
Roll, roll, roll away, away, away, away
