

Animal

The Beautiful Bodies

Come out, come out, wherever you are
You've got no idea what you're in for
If you choose to lurk in the shadows
I'll find out wherever you go
It's cool
You won't talk to me
That's fine
I won't stop until you're mine
I've got my girls watching you
Tonight I'm the hunter
You never know if you're here or you're there
Running like an animal
You don't know what to say
You're so scared
Running like an animal
Say goodbye I'm done with you
Shut, shut your mouth
Shut, shut your mouth
You never know if you're here or you're there
Running like an animal
Run, run, run 'cause we're right behind you
Don't look now 'cause we're gonna find you
Boom, boom, boom, the sound of your heartbeat
Now you know there's no escaping me
It's cool
I've got you figured out
That's fine
Long ago you crossed the line
Now all my girls are onto you
Tonight were the hunters
You never know if you're here or you're there
Running like an animal
You don't know what to say
You're so scared
Running like an animal
Say goodbye I'm done with you
Shut, shut your mouth
Shut, shut your mouth
You never know if you're here or you're there

Running like an animal
Run, run, run 'cause we're right behind you
Run, run, run 'cause we're right behind you
You never know if you're here or you're there
Running like an animal
You don't know what to say
You're so scared
Running like an animal
Say goodbye I'm done with you
Shut, shut your mouth
Shut, shut your mouth
You never know if you're here or you're there
Running like an animal
