Heaven On My Mind

Trouble

People don't really know where they want to go
Sometimes it's hard to save your soul
We've been livin' through the years
Drowning in tears he has seen my fears
Eyes can see no lies, hearts feel no painHope it's not too late
Heaven's on my mind
I can hardly wait
Heaven is there for all to findSnow blind friends can see no more
Acid rain keeps fallin' on the poor
Show me the way to the skies
Take me away, where souls will never die
Eyes can see no lies, hearts feel no painHope it's not too late
Heaven's on my mind
I can hardly wait
Heaven is there for all to findSin speaks to the wicked man
Are we all wasting away
I hate myself for the things that I've done
Still we claim to know your nameIt makes no difference which road you wanna take
Find your way back to earth
You just gotta have a little faith
And we'll live together, forever
Heaven is there for us all to find
