

Blackward

Darzamat

In the name of hatecraft
In the name of their blood
In the name of the night
In the name...Look inside the executioner's hood
I feel no mercy but I will let you meet him well
Come with me upon the scaffold
I will show you his grimace
Hard to read and understandCome with me upon the scaffold
I will lead you through the horror
Look inside executioner's hood
I will show you his grimaceYou can not hide from meA shocking and blasphemous vision
Making sick with smell of bloodI am the blasphemy stealing your freedom
I insult and I hate
I arouse fear and prayers
Nobody dares to look into my eyesWhose face has the executioner?Come with me upon the scaffold
I will lead you through the horror
Look inside executioner's hood
I will show you his grimace
