Be My Icon

Duran Duran

I'll follow you, I'll wait for you
You know there's no escape from me
You're more than wallpaper in my roomI write you letters and bring you gifts
I'm going through all your trash
I love you so much
I keep your cigarette buttsNow is the time to come out
Come out of the shadows
No need to be scared
You're gonna be so happy
I built you a shrine
Now you can be my iconI'm out on the edge
There's no way back inside
All my friends are gone
They didn't understand meIt makes so much sense
It's no coincidence
Just you and I alone here
And I need you, ohHow many hours have I stared
At my face in the mirror
I get worried sometimes
That the image will shatterNo need to be scared
You're gonna be so happy
I built you a shrine
Now you can be my iconNo need to be scared
I built you a shrine
Now you can be my iconI know this is real, believe it
We belong together
What ever happens
You're gonna be with me foreverBe my icon
You will be my icon
Be my icon
You will be my icon
Be my icon
