

# Be My Icon

## Duran Duran

I'll follow you, I'll wait for you  
You know there's no escape from me  
You're more than wallpaper in my room I write you letters and bring you gifts  
I'm going through all your trash  
I love you so much  
I keep your cigarette butts Now is the time to come out  
Come out of the shadows  
No need to be scared  
You're gonna be so happy  
I built you a shrine  
Now you can be my icon I'm out on the edge  
There's no way back inside  
All my friends are gone  
They didn't understand me It makes so much sense  
It's no coincidence  
Just you and I alone here  
And I need you, oh How many hours have I stared  
At my face in the mirror  
I get worried sometimes  
That the image will shatter No need to be scared  
You're gonna be so happy  
I built you a shrine  
Now you can be my icon No need to be scared  
I built you a shrine  
Now you can be my icon I know this is real, believe it  
We belong together  
What ever happens  
You're gonna be with me forever Be my icon  
You will be my icon  
Be my icon  
You will be my icon  
Be my icon
