In the Wonder

Matthew

make up your mind...because i need to know if you can see...
if you believe, or just don't know
this place is cold when the door's not closed...and like the winter
i must wait until it goes
and go it will...as i start to see that part of you i never knew was there in me
in the wonder...i will see you there, in the wonder
within these walls i built for me
and now you're tearing down the bricks so i can see...in the wonder
are you gonna save me?
in the wonder...i will see you there, in the wonder
