Griefgiver

Benediction

Writhing in pain
Your third eye blinks untamed
We were one to live
Now there's but grief you giveGriefgiverDread the hurt
Crush me in the dirt
Panic, extol
Angers my mind and soulEvolve, inherent living hate
We divide as you subjugate
Disregard, pre-empt the deed
To avenge I'll not concedeGriefgiverEvolve, inherent living hate
We divide as you subjugate
You proclaim grief to me
My existence, your diseaseYou give me grief
You give me
You give me grief
You give me griefEvolve, inherent living hate
To amend is far too late
Enraged inside your grip
Now alone, your power tripGriefgiver
