

# Something New

## Ben Hammond

i gotta feel i gotta work to hold you  
i gotta feel i wait to let you know  
i gotta feel i gotta work to own you  
i gotta feel like, we're waiting for  
something new, boy

something new

i hate to say it but you drive me crazy  
the kinda thing i think i'd like to let you know  
i hate to say it but i need you baby  
i gotta feel like, (i'm) waiting for  
something new, boy  
something new

-  
gotta feel it, gotta want it  
gotta hold it, gotta flaunt it  
gotta taste it, gotta give it  
gotta love it gotta leave it  
gotta hold it, gotta want it  
gotta feel it, gotta flaunt it  
gotta feel like, something new

-  
i really really wanna make you happy  
really really wanna wind up next to you  
i really really wanna make it someday  
i really feel like we can make this feel brand new  
i really really wanna make this happen  
really really wanna wind up next to you  
i really really wanna feel you want me  
i really feel like we can make this feel brand new
