

Be A Man

Megan Hilty

VERSE 1:

The sun don't lie
And I hear it sayin'
That our day is done
And this love is breakin'
We both know you wanna go
You're heart's already gone
It's gonna hurt, but you make it worse
When you keep hangin' on

*CHORUS

Just be a man about it
Don't try to dance around it
Just have the decency to say to me that you got other plans
Say you can live without me
Go on forget about me
Walk out that door boy, if you think you can
Just be a man
Just be a man about it

VERSE 2:

Why do people change?
Why do hearts break open?
And the truth we know
Have to go unspoken
Look me in the eye and make me cry a thousand tears
Let me hear it straight from you

Then you can disappear, and

CHORUS

Just be a man about it
Don't try to dance around it
Just have the decency to say to me that you got other plans
Say you can live without me
Go on forget about me
Walk out that door boy, if you think you can
Just be a man
Just be a man about it

BRIDGE

Ohh goodbye
Good luck with your new life, your new love

Get it over with
Can't take no more of this
Why can't you just be strong, and be a man about it?

CHORUS

Don't try to dance around it
Just have the decency to say to me that you got other plans
Say you can live without me
Go on forget about me
Walk out that door boy, if you think you can
Just be a man
Just be a man about it
Just be a man
