

# 8-Track

Brian Setzer

Food's on the table and the coffee's getting cold  
And I haven't eaten since I don't know when  
My 8-track's pumpin' out a country song  
And I'm tearing down the highway again There's a little hideaway  
Where my baby waits for me  
In a little cozy booth by the door  
I looked all around but my baby had gone  
She just couldn't wait anymore My 8-track's pumpin' out a country song  
About a girl that's done me wrong  
My 8-track's playing all your favorite songs  
So come on honey sing along It's a Tennessee tradition  
To loose your inhibition  
So check your attitude by the door  
And hear this little tune that I wrote this afternoon  
And I won't bother you anymore My 8-track's pumpin' out a country song  
About a girl that's done me wrong  
My 8-track's playing all your favorite songs  
So come on honey sing along  
My 8-track's pumpin' out a country song  
About a girl that's done me wrong  
My 8-track's playing all your favorite songs  
So come on honey sing along 8-track  
My 8-track player of love  
My 8-track player of love
