

Until the End of the World

Malaise

verse

All the weights that keep me down seem

heavier than before, they hit me in my face , though you feel nothing

Only time will heal , you say, your words my therapy, but half of me is gone, my dearest treasure torn

away

I'll stick with you until the end of the world, I cry out loud , but you hear nothing.....I'll wait for you until the

end of the world , my dearest treasure torn away
