Found

Lee Burridge

Like a beat up boat that never made it to the shore
Like an old love letter hidden in the bottom drawer
Like a shiny penny heads up on the ground
I've been found
Like a message in a bottle in the sand
Like the ace of hearts that shows up in your hand
Like an old lost love the second time around
Found
I've been found, hungry like the desert
Waitin' on a drop of rain
Found, lost for so long
No, I never thought that I'd be saved
Somehow, I finally discovered
That this is where I wanna stay
Baby now, I've been found
When I'm here with you underneath the sheets
It's a perfect world, so whole and so complete
You're the simple truth that makes me who I am
A better man

I've been found, hungry like the desert
Waitin' on a drop of rain
Found, lost for so long
No, I never thought that I'd be saved
Somehow, I finally discovered
That this is where I wanna stay
Baby now, I've been found
Well, I've been found
I've been found, hungry like the desert
Waitin' on a drop of rain
Found, lost for so long
No, I never thought that I'd be saved
Somehow, I finally discovered
That this is where I wanna stay
Baby now, I've been found
I've been found
I've been found
I've been found
