

# California

## The Babys

When I came back home  
From the USA  
I had nothin' in my pockets  
And not a lot to say Though I knew somehow  
We would meet real soon But the way, you've been avoidin' me  
It's like I'm livin' on the moon  
Here I am on this side of the stars  
Livin' in California And sometimes  
I get out of reach in the bars  
Dreamin' about my life  
And maybe one day, I'll take a wife Though I spent some time  
On the evil road  
I've done things that I'm ashamed of  
Oh man, it's such a heavy load Though I knew somehow  
We would meet real soon But the way, you've been avoidin' me  
It's like I'm livin' on the moon  
Here I am on this side of the stars  
Livin' in California And sometimes, I get out of reach in the bars  
Dreamin' about my life  
And maybe one day, I'll take a wife  
Oh, I miss you girl Your dreams are more than I can take  
You are the love of my life  
But I could be my biggest mistake  
Ah babe, my heart's turnin' like a wheel I feel emotion for you  
But I just can't tell if it's real  
When I came back home from the USA  
I had nothin' in my pockets and not a lot to say Though I knew somehow  
We would meet real soon But the way you've been avoidin' me  
It's like I'm livin' on the moon  
Here I am on this side of the stars  
Livin' in California And sometimes I get out of reach in the bars  
Dreamin' about my life  
And maybe one day, I'll take a wife  
Oh, ooh baby, oh, I miss you girl
