

# Ice on Fire

[Axxis](#)

People calling  
My heart is beating wild  
Nervous and excited I'm waiting for show time  
Now it's time and the lights go out  
I feel I could die, the people cry and shout  
I don't want to go out Someone's pushing me, there's no way back, I fall  
Into another world, the spotlights hit my soul  
Here I can meet you all Ice on fire and it burns  
I can feel the sweat running my heart's beating wild  
Ice on fire and I'm turning around  
See me and feel me and hear what I say  
Ice on fire Burning, beating  
You're calling out my name  
It's a temptation to go insane  
Living in a world where I meet my other side  
I feel the passion, it makes me feel alright  
I feel it every night Ice on fire and it burns  
I can feel the sweat running, my heart's beating wild  
Ice on fire and I'm turning around  
See me and feel me and hear what I say  
Ice on fire and it burns  
In my paradise I'm breaking the ice See me and hear what I say in my paradise  
I'm falling into this world, where I'm breaking the ice Ice on fire and it burns  
I can feel the sweat running, my heart's beating wild  
Ice on fire and I'm turning around  
See me and feel me and hear what I say  
Ice on fire and it burns  
In my paradise I'm breaking the ice
