

# Soaring

Cris Williamson

Lying in the circle of your arms I feel how strong we are  
together and apart  
Oh my heart, my heart is soaring  
My love is pouring into your light  
You came and found me when I was lost in a daze  
You came around me and showed me your face  
You are my mirror, I see myself shine  
And when I am near you, I'm here in my own time

??? to myself in the mirror  
Finding myself, getting much clearer  
??? to myself in the mirror  
Finding myself, getting much clearer

You loved the daylights into me  
A heartbeat harmony  
A circle symphony  
Flying free, my heart is soaring  
My love is pouring into your light  
You came and found me when I was lost in a daze  
You came around me and showed me your face  
You are my mirror, I see myself shine  
And when I am near you, I'm here in my own time

Soaring, I am soaring, I am soaring, I am soaring, I am soaring  
here in my own time
