Breakdown

Empire Of The Sun

You gotta let up
Hallucinate, dream space
Levity, shadow play
Harmonize, no escape
Pressurize everybody now till they say
Sound it out
Sound it out
Sound it out
Sound it out
She's gone crazy
For real or just me?
She's addressed but can she sing?
Where's the truth in the tongue?

Pressurize everybody now till they say
Sound it out
Sound it out
Sound it out
Sound it out
She's gone crazy
You gotta let up or you're headed for a breakdown
You gotta let up or you're headed for a breakdown
You gotta let up or you're headed for a breakdown
You gotta let up or you're headed for a breakdown
You gotta let up or you're headed for a breakdown
You gotta let up or you're headed for a breakdown
