

# Fade Away

## Velvet Acid Christ

No fun, no dreams, no life, no time  
No fun, no dreams, no time, no life  
Another day of misfortune  
Another day of hating everyone  
Another day of hatred  
Of depression  
On successionOn the mental breakdown  
No fun, no dreams, no life, no time  
Just fade away  
No life, no dreams, just another day  
No fun, no life, no dreams, just fade away  
Life in the mirror  
Life in your hands  
Life on a broken dysfunctional life  
Life, death  
Life, there on no fucking fantasy  
Nothing to dream  
Just another day hereNo fun, no life, no dreams, no time  
No fun, no, nothing at all  
Time doesn't hear you  
You're dying awayNo one will understand you  
No one to come and play  
No one to stop to hear you  
No one will hear  
Listen to what I say  
What you say  
I hammer a nail to my face  
And sayMentally backwards  
In dreams that never transformed  
Into anything at all  
Time doesn't hear you  
No life, no fun, no dreams  
No time, no life, no dreams  
Just fade awayTime doesn't hear you, no time doesn't care  
No fun, no dreams, no life  
No fun, no dreams, no life  
No promises, no fucking time  
No life, no dreams, fade away

Fade away, fade away
