

Losing Keys

Jack Johnson

Don't worry
Everybody in the room notices you
Sit back and relax, the night is early
We are about to overdo it So come and tell me something
That you've already told me
'Cause everybody's heard our lovely stories
I'm hoping some of them are true I've been losing lots of keys lately
I don't know what that means
But maybe I'd be better off
With things that can't be locked at all I've been feeling kind of sea sick lately
See you reaching to me gonna save me
You were me, I would much rather take the fall The world has its ways
To quiet us down
The world has its ways
To quiet us down comes the rain Down comes our spirits again
But down comes the strength
To lift us up and then Been going up when now
For to long
Forget how To let go
Seems too hard
Too late now
To turn around The world has its ways
To quiet us down
The world has its ways
To quiet us down comes the rain Down comes our spirits again
But down comes the strength
To lift us up and then
