Drain the Blood (Album Version)

The Distillers

I'm living on shattered faith
The kind that likes to restrict your breath
Never been a better time than this
Suffocate on eternal blissIn a city that swells with so much hate
You seem to rise above and take its place
The heart pumps until it dies
Drain the blood the heart is wiseAll my friends are murder
All my bones no marrows in
All these fiends want teenage meat
All my friends are murderers awayI never met a pearl quite like you
Who could shimmer and rot at the same time through
There's never been a better time than this
To bite the hand of the frost bitten eminenceAll my friends are murder
All my bones no marrows in
All these fiends want teenage meat
All my friends are murderers
Away, away, awayI'm alive in uterine
A star in the dark a new day has dawned
Open up and let it flow
I'll make it yours so here we goAll my friends are murder
All my bones no marrows in
All these fiends want teenage meat
All my friends are murderersHe's gone away
He's gone away
He's gone away
