

Angel 'N. U.

Dangerous Toys

I can drink gasoline
Ain't too much that I ain't seen
I make a rabid dog seem so clean
I'll take ten slaves and set them free Put your money where your mouth is
What I do, sure ain't your biz
Rock 'n' roll people, come with me
Show ya how good the bad guy can be Bringing out the angel in you
Bringing out the angel in you
Brings out the devil in me I go to work on time
Feels like I'm doin' fine, yes it does
And all my stuff I gave to you
Nothing seems to pull you through, baby Too much frustration
On a joyous occasion
I can't do nothing right
Well, push and shove to start the fight Bringing out the angel in you, yeah
Bringing out the angel in you
Brings out the devil in me Thirteen years
Before I was tattooed
I thought I found myself
But I was screwed Bringing out the angel in you
I go to work on time
Bringing out the angel in you
Feels like I'm doing fine Bringing out the angel in you
All my stuff, I gave to you
Bringing out the angel in you
Get it Bringing out the angel in you
Bringing out the angel in you
Brings out the devil in me, yeah Bringing out the angel in you
Bringing out the angel in you
Bringing out the angel in you
Bringing out the angel in you Bringing out the angel in you
You, you, you, you
Bringing out the angel in you
Brings out the devil in me Brings out the devil in me
Brings out the devil in me
Brings out the devil in me
Brings out the devil in me Bringing out the angel in you
Bringing out the angel in you
Brings out the devil in me

Brings out the devil in me
