Sing It Out

Ben Rogers

I'm on the run
I'm on the ropes this time
Where is my song?
I've lost the song of my soul tonight
Sing it out
Sing it out
Take what is left of me
Make it a melody
Sing it out
Sing out loud
I can't find the words to sing
You'd be my remedy
My song
My song
I'll sing with what's left of me
Where is the sun?
Feel like a ghost this time
Where have you gone?
I need your breath in my lungs tonight
Sing it out
Sing it out
Take what is left of me
Make it a melody
Sing it out
Sing out loud

I can't find the words to sing
You'd be my remedy
My song
My song
I'll sing with what's left of me
I'm holding on
I'm holding on to you
My world is wrong
My world is a lie that's come true
And I fall in love
With the ones that run me through
When all along all I need is you
Sing it out

Sing it out
Take what is left of me
Make it a melody
Sing it out
Sing out loud
I can't find the words to sing
You'd be my remedy
My song
My song
My song
I'll sing with what's left of me
