

Fail

Haste the Day

I am locked in a cell
That will never open
Living inside myself
I will never open I never wanted to fail
I thought my problems would fade out
Now its hammer and nail
That make me feel so
Far away
From the second chances
Far away
From the ones that I love
Far away
From the second chances
Far away
From the ones that I love Fear has failed me
Fear has failed me I never wanted to fail
I thought my problems would fade out
Now its hammer and nail
I fear I'll never make it out Never seen this place before
'Cause I deserve this hell I've made
So turn around and walk away
But I'll keep waiting until you unlock the door
I hide away to separate
'Cause I don't have the strength to wait 'Cause I deserve this hell I've made
So turn around and walk away I hide away to separate
'Cause I don't have the strength to wait Never seen this place before
'Cause I deserve this hell I've made
So turn around and walk away
But I'll keep waiting until you unlock the door
I hide away to separate
'Cause I don't have the strength to wait I rememberd a day
When I saw the sun come in I failed you once
What if it happens again? I stand with empty hands
(Unlock the door)
Before the one that I can't comprehend
(Let me out)
How can I trust this grace?
(Redemption)
I know I failed you once

What if it happens again? Fear has failed me
Can you find a way?
Fear has failed me
Can you find a way?
Fear has failed me
To overcome
