Mystery

Brooke Fraser

I wanna get your words stuck in my head
I wanna touch your soul with mine
I want to always be, be by your lead
AlwaysI wanna know that you hung the stars in the sky
So on lonely nights I would know your presence
I wanna feel your love under my skin, down through my bones[Chorus]
Your love endures forever
Your love changes me
Your love makes me whole, makes me better
Your love enduresI wanna feel the wind and know that you're near me
And see in the seasons your mystery
I wanna feel your love flow through my veins
Pound through my heart
[Chorus]I want to know how this could be
Yet your love remains a mystery
That's woven all the way
That's woven all the way
That's woven all the way through me[Chorus]
