Summer Fades To Fall

Faber Drive

I count down the days
Until we say good bye
I wish there was a way
That I could just stop time
Forever, remember
Summer nights we spent together
Oh my God, counting stars
Just wishing I could stay
(I know we only met a month ago)
With you
(It's always hard to let the feelings go)
When summer fades to fall
(Whoa, whoa)
I'd stay
(I should have known that this would come and go)
With you
(And now we'll only get the afterglow)
When summer fades to fall
(Whoa, whoa)
Following you
Only time will tell
When you're back in school
Will you meet someone else?
Remember, forever
Summer nights we spent together
Holding hands, making plans
Just wishing I could stay
(I know we only met a month ago)
With you
(It's always hard to let the feelings go)
When summer fades to fall
(Whoa, whoa)
I'd stay
(I should have known that this would come and go)
With you
(And now we'll only get the afterglow)
When summer fades to fall
(Whoa, whoa)
Everytime I think of you

I don't wanna face the truth
Why wait forever, knowing we may never?
Follow through
Guess, I should get over you
But I can't let go so soon
Why wait forever, knowing we may never?
Follow through
(I'll wait forever just for you)
I count down the days
Until we say good bye
I wish there was a way
That I could just stop time
Just wishing I could stay
(I know we only met a month ago)
With you
(It's always hard to let the feelings go)
When summer fades to fall
(Whoa, whoa)
When summer fades to fall
(Whoa, whoa)
When summer fades to fall
(Whoa, whoa)
I should have known that this would come and go
And now we'll only get the afterglow
When summer fades to fall
