Coyote Duster

Fu Manchu

Three in the front, got three in the back
Side by side headin' down to the track
Kentucky green from a hand to hand
What do you mean you dont understand?
(Hey Scott, I dont understand)Under a mountain came a shining light
Been shaking for days and night
Spinning faster, reaching out my hand
What do you mean you don't understand?All I see
A bright green
A bright green
