

Saturday Nite

[Mcfly](#)

When my parents outta town
I got all my buddies round
So we're gonna have a party tonight
And if your daddy's got the truck Then I'll come and pick you up
And anyone who wants to come for a ride
And if you wanna help me drink
There's some bottles by the sink There'll be 20 thousand people inside
You know that everybody likes to party on a Saturday nite And we got every girl from school
In the deep end at the pool
If you wanna take a dip bring your trunks
When we start to dim the lights Gotta find a girl you like
And you better hope she's already drunk
and if somebody feeling sick
Get 'em in the garden quick Cos we don't want 'em to spoil the fun
You know that everybody wants to party on a Saturday nite We're waking everyone asleep
When we start to party in the street
We want the neighbors to complain
'Cos the musics driving them insane And if its going to to your head
Get behind the garden shed
That's where everybody goes to get laid
Or if you want another beer Then theres plenty in the rear
No one here to check if you're underage
And if you think you're having fun
Then the party's just begun Early morning leavers wish that they'd stayed
You know that everybody likes to party on a Saturday nite We're waking everyone asleep
When we start to party in the street
We want the neighbors to complain
'Cos our musics driving them insane When my parents come back home
I say we been alone
But we don't know how the mess got this bad
I'll be grounded for a while All I have to do is smile
And get a little talk from my dad next time they're away
All my buddies can stay
We'll do our best to drive the neighborhood mad You know that everybody likes to party on a Saturday
Everybody wants to party on a Saturday
Everybody loves to party on a Saturday nite
