

# When You Go

## Littl'ans

You can settle down in Mexico  
Runaway join a circus show  
Whatever, baby it's alright with me  
Take a walk in the pouring rain  
Sky dive from a jet airplane  
Love like ours is all about being free  
There's two chairs on the front porch  
One's yours and one is mine  
Four wheels in the driveway  
That'll take us across the line  
It doesn't really matter  
If you wanna rock or roll  
Just take me with you when you go  
Swim the ocean for a million pearls  
Hitch hike all the way around the world  
Fly to the moon in a rocket ship I don't care  
Ride a camel cross the desert sand  
Sail away to never never land  
Imagination can take you anywhere  
So be the hero that rides off into the sun  
Or a wild raging river always on the run  
Change direction like the strong four winds that blow  
Just take me with you when you go  
Today, tomorrow and forever every turn you make  
I want to be there, I want to be there  
Live like a gypsy  
Chase your distant dreams  
Or get lost in the blues on  
Bourbon Street down in New Orleans  
Believe in Heaven  
If you want to save your soul  
Just take me with you when you go  
Just take me with you when you go
