

Golden Days

Jim Pembroke Band

These are the golden days
In this golden age that we're livin'
I show you a thousand ways
I show you how we take what we're given

Alright

Yeah

You can say what you want
We don't need your permission
Cause you're so busy talkin'
That you don't even listen
You can do what you want
You know that we don't mind

You got the years

But we got the time

These are the golden days
In this golden age that we're livin'
I show you a thousand ways
I show you how we take what we're given

You can say what you want
We don't need your permission
With all the things that you hide

How do we look suspicious
Better look straight ahead
Don't look over your shoulder
Because you'll wake up to find

That we've taken over

These are the golden days
In this golden age that we're livin'
I show you a thousand ways
I show you how we take what we're given
(We have the strength to survive)

These are the golden days
In this golden age that we're livin'
I show you a thousand ways
I show you how we take what we're given

These are the golden days
In this golden age that we're livin'
I show you a thousand ways

I show you how we take what we're given
Don't take what you're given
Don't take what you're given
We won't take what we're given
